Keith

Acme RFP v1.0

Please review the RFP and let me know if you have questions. Thanks team!

Versions · Latest Upload New

Qontext inset displays Real-time Business-Object-specific content and activity.

Bala

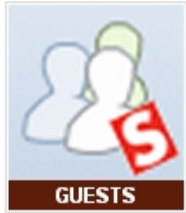

Please make this PPT visually look better

Namisha, I have tried to capture information (visually) as per Jay's preferences (use of bold text etc.). Please exercise full creative freedom to revamp this PPT. The WORKPLACE COLLABORATION image needs to be created afresh (and follow the styles in Social Intranet image).

Versions · Latest Upload New

Version	By	Notes	Actions
Latest	Bala 4 hrs ago	Included "quote from Empowered" and used that for continuity across the first few slides.	
2	Bala 21 hrs ago	Namisha, I have made flow-related changes. Thanks!

Mobile Social Portal (Recommendations by Chris Madison)

Last modified by **Keith** 21 hrs ago | 0 | 0 | Like | Comment | Forward | Stop alerts

- Recommend using an algorithmic layer on top of check-in data to analyze user check-ins and general community activity.
- give users recommendations on the homepage and in a weekly email.
- As users post more activity, they should earn more buzz point and feature in the "most active" section of the home page.
- Need to improve the personalization options.
